

Publications

รศ. ดร. วิชญ์ กาญจนสวัสดิ์

1. Udomchaisakul N, Kanchanasavita W, Buajeeb W. Effect of denture cleanser containing longan-extract granules on color stability, surface roughness and hardness of a polymeric denture base material. M Dent J. 2011; 31(2): 73-80.
2. Kanchanasavita W, Runghava P, Shamsiahwati Mat-Ran., Microtensile bond strength between a lithium disilicate glass-ceramic or a Y-TZP zirconia ceramic bonded to dentin when using two self-etch, self-adhesive resin cements compared with an adhesive resin cement. M Dent J Volume 33 Number 2 May-August 2013.
3. Kanchanasavita W, Triwatana, P., Suputtamongkol, K., Thanapitak, A., Chatchaiganan, M. Contrast Ratio of Six Zirconia-Based Dental Ceramics. J Prosthodont 2014;23:456-461.
4. Porntida Visuttiwattanakorn, Noi Rithy, Kallaya Suputtamonkol, Widchaya Kanchanasavita. Shear bond strength of Zirconia to different adhesive resin cements. M Dent J 2015; 35: 127-136.
5. Kanchanasavita W, Runghava P and Nithisathien N. Effect of a Universal Primer on Microtensile Bond Strength of three resin cements to a Y-TZP Zirconia Ceramic. Mahidol Dent J 2013; 33: 81-90.
6. Runghava P, Chitmongkolsuk S, Kanchanasavita W, Penjor K. Fracture resistance of CAD/CAM milled monolithic crowns (Lithium Disilicate and Resin Nano Ceramic) Compared with Zirconia based all-ceramic crowns. M Dent J 2016; 36: 259-68.
7. Wonglamsam A, Kaewkornpradit W, Nagaviroj N, Kanchanasavita W. Effect of processing and curing procedures on residual monomer levels of denture base materials. M Dent J 2016; 36: 145-54.
8. Nagaviroj N, Wanitchanont K, Kanchanasavita W, Wonglamsam A. Dimensional stability of compression and injection molding denture bases in long and short curing procedures. M Dent J 2016; 36: 155-63.
9. Nagaviroj N, Tapananon A, Kanchanasavita W, Chitmongkolsuk S. The effect of blasting zirconia liner on microtensile bond strength of zirconia to layered and pressed veneers. M Dent J 2017; 37:163-172
10. Chitmongkolsuk S, Eiampongpaiboon T, Bunyasresth N, Kanchanasavita W. Fracture resistance of implant supported all ceramic zirconia-lithium disilicate crowns. M Dent J 2017; 37: 7-14.

11. Kay SC, Kanchanasita W, Wonglamsam A. Effect of three repairing materials on the flexural strength of repaired heat-cured acrylic resin denture base material. *M Dent J* 2017; 37: 37-45.
12. Hout D, Wonglamsam A, Kanchanasita W. Flexural strength of relined denture base using different thickness of self-cured relining material. *M Dent J* 2017; 37:223-232
13. Pukpuek P , Nagaviroj N , Kanchanasita W. Effect of surface sealant coating on flexural strength of provisional resin materials. *M Dent J* 2018; 38 (3) : 205-212.
14. Kotnarin N , Nagaviroj N , Kanchanasita W. The effect of staining solutions on the color stability of the provisional restorative materials Nichaphat *M Dent J* 2018; 38 (3) : 287-296.
15. **Kulchokrungsun D, Kanchanasita W, Wonglamsam A.** Modification of curing technique of a 'self-cure' injection molding denture base materials: Effect on flexural strength. *M Dent J* 2018; 38 (3) : 297-304
16. Rukkhaphan T, Kanchanasita W, Wonglamsam A. Modification of curing technique of a 'self cure' injection molding acrylic resin: Effect on residual monomer. *M Dent J* 2018; 38 (3) : 305-312
17. Boekfah N, Wonglamsam A, Kanchanasita W. Curing process modification of a 'self-cured' injection molding material: Effect on water sorption and solubility. *M Dent J* 2019; 39 (1) : 1-7
18. Choedkiatsakun K, Wonglamsam A, Kanchanasita W. Curing process modification of a 'self-cured' injection molding material: Effect on surface hardness. *M Dent J* 2019; 39 (1) : 9-14.
19. Pipitsombat K, Kanchanasita W, Wonglamsam A. Modification of curing technique of a 'self cure' injection molding acrylic resin: Effect on color stability. *M Dent J* 2019; 39 (1) : 15-20.
