

ชื่อ-สกุล: คงวัช ชัยรัชวิทย์	Name: Kongthawat Chairatvit
ตำแหน่งทางวิชาการ: รองศาสตราจารย์	Title: Associate Professor
วุฒิการศึกษา: วท.บ. (ชีววิทยา) เกียรตินิยมอันดับ 1 , ปร.ด. (ชีวเคมี)	Education: B.Sc. (Biology) Hons , Ph.D. (Biochemistry) Medical College of Wisconsin, USA
ความเชี่ยวชาญ: ยูบิควิตินชั้น มะเร็งช่องปาก ตัวชี้วัดทางชีวภาพในน้ำลาย	Expertise: Ubiquitination, Oral Cancers, Saliva Biomarkers
โทรศัพท์: -	Phone: -
อีเมล: kongthawat.cha@mahidol.ac.th	Email: kongthawat.cha@mahidol.ac.th

### ผลงานทางวิชาการ / Publications

1. DOUNGUDOMDACHA, S., CHAIRATVIT, K., SANGUANSIN, S., and SURARIT, R. RAGE Promotor in Association with Dental and Medical Histories. (2006) *Mahidol Dent J*, 26:103-113
2. Chairatvit, K., and Ngamkitidechakul, C. The Ubiquitin-Proteasome Pathway: Regulation of Eukaryotic Cell-Cycle and Cell-Cycle Abnormalities in (Oral) Cancer Cells. (2006) *J Dent Assoc Thai*, 56:433-442
3. Chairatvit, K., and Ngamkitidechakul, C. Control of Cell Proliferation via Elevated NEDD8 Conjugation in Oral Squamous Cell Carcinoma. (2007) *Mol. Cell. Biochem.*, 306:163-169
4. Pibooniyom Khovidhunkit, A., Yingsaman, N., Chairatvit, K., Surarit R., Fuangtharnthip, P., and Petsom A. *In vitro* Study of the Effects of Plaunotol on Oral Cell Proliferation and Wound Healing (2011) *J Asian Nat Prod Res.* 13(2):149-59.
5. Chairatvit, K., Wongnoppavich, A., and Choonate, S. Up-regulation of Interferon-Stimulated Gene15 and Its Conjugates by Tumor Necrosis Factor- $\alpha$  via Type I Interferon-dependent and independent Pathways. (2012) *Mol. Cell. Biochem.* 368:195-201 (IF = 2.329)
6. Khanaree, C., Chairatvit, K., Roytrakul, S., Wongnoppavich, A. Reactive Center Loop Moiety is Essential for the Maspain Activity on Cellular Invasion and Ubiquitin-proteasome Level. (2013) *Oncol. Res.* 20:427-435 (IF = 1.55)
7. Choonate, S., Korsuwannawong, S., and Chairatvit, K. Evaluation of the Proliferative Effect of *Clinacanthus nutans* Glycerine and *Moringa oleifera* Seed Oil Extraction on Human Gingival Fibroblast Cell Line. (2014) *M. Dent. J.* 34:373-384.
8. Wongnoppavicha, A., Dukaewa, N., Choonate, S., and Chairatvit, K. Up-regulation in human cervical carcinoma cells of maspin gene expression by transforming growth factor- $\beta$ 1 through convergence of Smad and non-Smad signaling pathways. (2016) *Oncol. Lett.* (in press)

9. Sanguansermisri, P. Chairatvit, K. Roytrakul, S. Doungudomdacha, S. Surarit, R. Exploring difference in subgingival microbial communities in dog and human periodontal diseases using DGGE technique. *Thai Journal of Veterinary Medicine*, 2017.
10. Wongnoppavich, A. Dukaew, N. Choonate, S. Chairatvit, K. Upregulation of maspin expression in human cervical carcinoma cells by transforming growth factor  $\beta$ 1 through the convergence of Smad and non-Smad signaling pathways. *Oncology Letters*, 2017.
11. Sanguansermisri, P. Jenkinson, H.F. Thanasak, J. Chairatvit, K. Roytrakul, S. Kittisenachai, S. Puengsurin, D. Surarit, R. Comparative proteomic study of dog and human saliva. *PLoS ONE*, 2018.
12. Talungchit, S. Buajeeb, W. Lerdtripop, C. Surarit, R. Chairatvit, K. Roytrakul, S. Kobayashi, H. Izumi, Y. Khovidhunkit, S.-O.P. Putative salivary protein biomarkers for the diagnosis of oral lichen planus: A case-control study. *BMC Oral Health*, 2018.
13. Techatanawat, S. Surarit, R. Chairatvit, K. Roytrakul, S. Khovidhunkit, W. Thanakun, S. Izumi, Y. Khovidhunkit, S.-O.P. Salivary and serum cystatin SA levels in patients with type 2 diabetes mellitus or diabetic nephropathy. *Archives of Oral Biology*, 2019.
14. Pouyfung, P. Choonate, S. Wongnoppavich, A. Rongnoparut, P. Chairatvit, K. Anti-proliferative effect of 8 $\alpha$ -tigloyloxyhirsutinolide-13-O-acetate (8 $\alpha$ THG) isolated from *Vernonia cinerea* on oral squamous cell carcinoma through inhibition of STAT3 and STAT2 phosphorylation. *Phytomedicine*, 2019
15. Lertsookawat, W. Wongnoppavich, A. Chairatvit, K. Up-regulation of interferon-stimulated gene 15 and its conjugation machinery, UBE1L and UbcH8 expression by tumor necrosis factor- $\alpha$  through p38 MAPK and JNK signaling pathways in human lung carcinoma. *Molecular and Cellular Biochemistry*, 2019
16. Techatanawat, S. Surarit, R. Chairatvit, K. Khovidhunkit, W. Roytrakul, S. Thanakun, S. Kobayashi, H. Khovidhunkit, S.-O.P. Izumi, Y. Salivary and serum interleukin-17A and interleukin-18 levels in patients with type 2 diabetes mellitus with and without periodontitis. *PLoS ONE*, 2020.
17. Dukaew, N. Chairatvit, K. Pitchakarn, P. Imsumran, A. Karinchai, J. Tuntiwechapikul, W. Wongnoppavich, A. Inactivation of AKT/NF- $\kappa$ B signaling by eurycomalactone decreases human NSCLC cell viability and improves the chemosensitivity to cisplatin. *Oncology Reports*, 2020
18. Dukaew, N. Konishi, T. Chairatvit, K. Autsavapromporn, N. Soonthornchareonnon, N. Wongnoppavich, A. Enhancement of Radiosensitivity by Eurycomalactone in Human NSCLC Cells through G2/M Cell Cycle Arrest and Delayed DNA Double-Strand Break Repair. *Oncology Research*, 2020.

19. Talungchit S., Buajeeb W., Khovidhunkit, Siribang-On P., Surarit R. Chairatvit K., Roytrakul, S., Kobayashi, H., Izumi Y. Increased Salivary Periodontal Pathogens and IL-17A in Oral Lichen Planus Patients with or without Periodontitis. *World Journal of Dentistry*. 2022; 13(3): Pages 182 – 190
